### **NSE BSE EOD Downloader**

Is developed to be an open source tool that will allow you to download / process EOD, F&O and real time data from Indian stock exchange websites and promote future developments from community. Is not dependent on any commercial services, which eliminates the risk of allowing third party to directly download the data through network / NSE or BSE websites. The tool will be a stand-alone application and will be enabled by default to load data automatically. This is to ensure that the data is downloaded only for the selected period. Features: To download eod data from NSE BSE, you just have to click on the download link, and the tool will download all the data in.xls format. (This feature doesn't work on the mobile website) You can select the ticker symbol, bar and plot type, for which you want data to be downloaded. Options: - Auto download of eod data for starting and end date selected (Done default) - Default download of data for starting and end date - Automatically download eod data for specified start and end dates - Download of eod data for specific period (Ex: Dec 01 2007 to Dec 31 2007) - Upload new eod data to the NSE or BSE site - Reading of downloaded eod data from excel files - Upload of processed data to NSE or BSE site - Saving of processed data to excel files - Permissions - Deletion of data from excel file - Removing of ticker symbols from the excel file - Remove of data from the excel file Known issues: - Not working on the mobile website - If you are receiving an error that the excel file is damaged, you may need to open file and do ctrl-Z to remove or undo the action. V 1.0 is the currently released version of the application. V 1.1 - Improved the Date selector and the process to download the data - Only 200 tickers are supported Note: This application is developed with the help of Python, PySide and QT.
